

PROJECT SHOWCASE

AI Quiz Generator

Intelligent assessment. Adaptive difficulty. Global competition.

Core Architecture

Dynamic Gen

Infinite unique questions via AI prompt engineering.

Adaptive Tiering

Difficulty scales automatically based on accuracy.

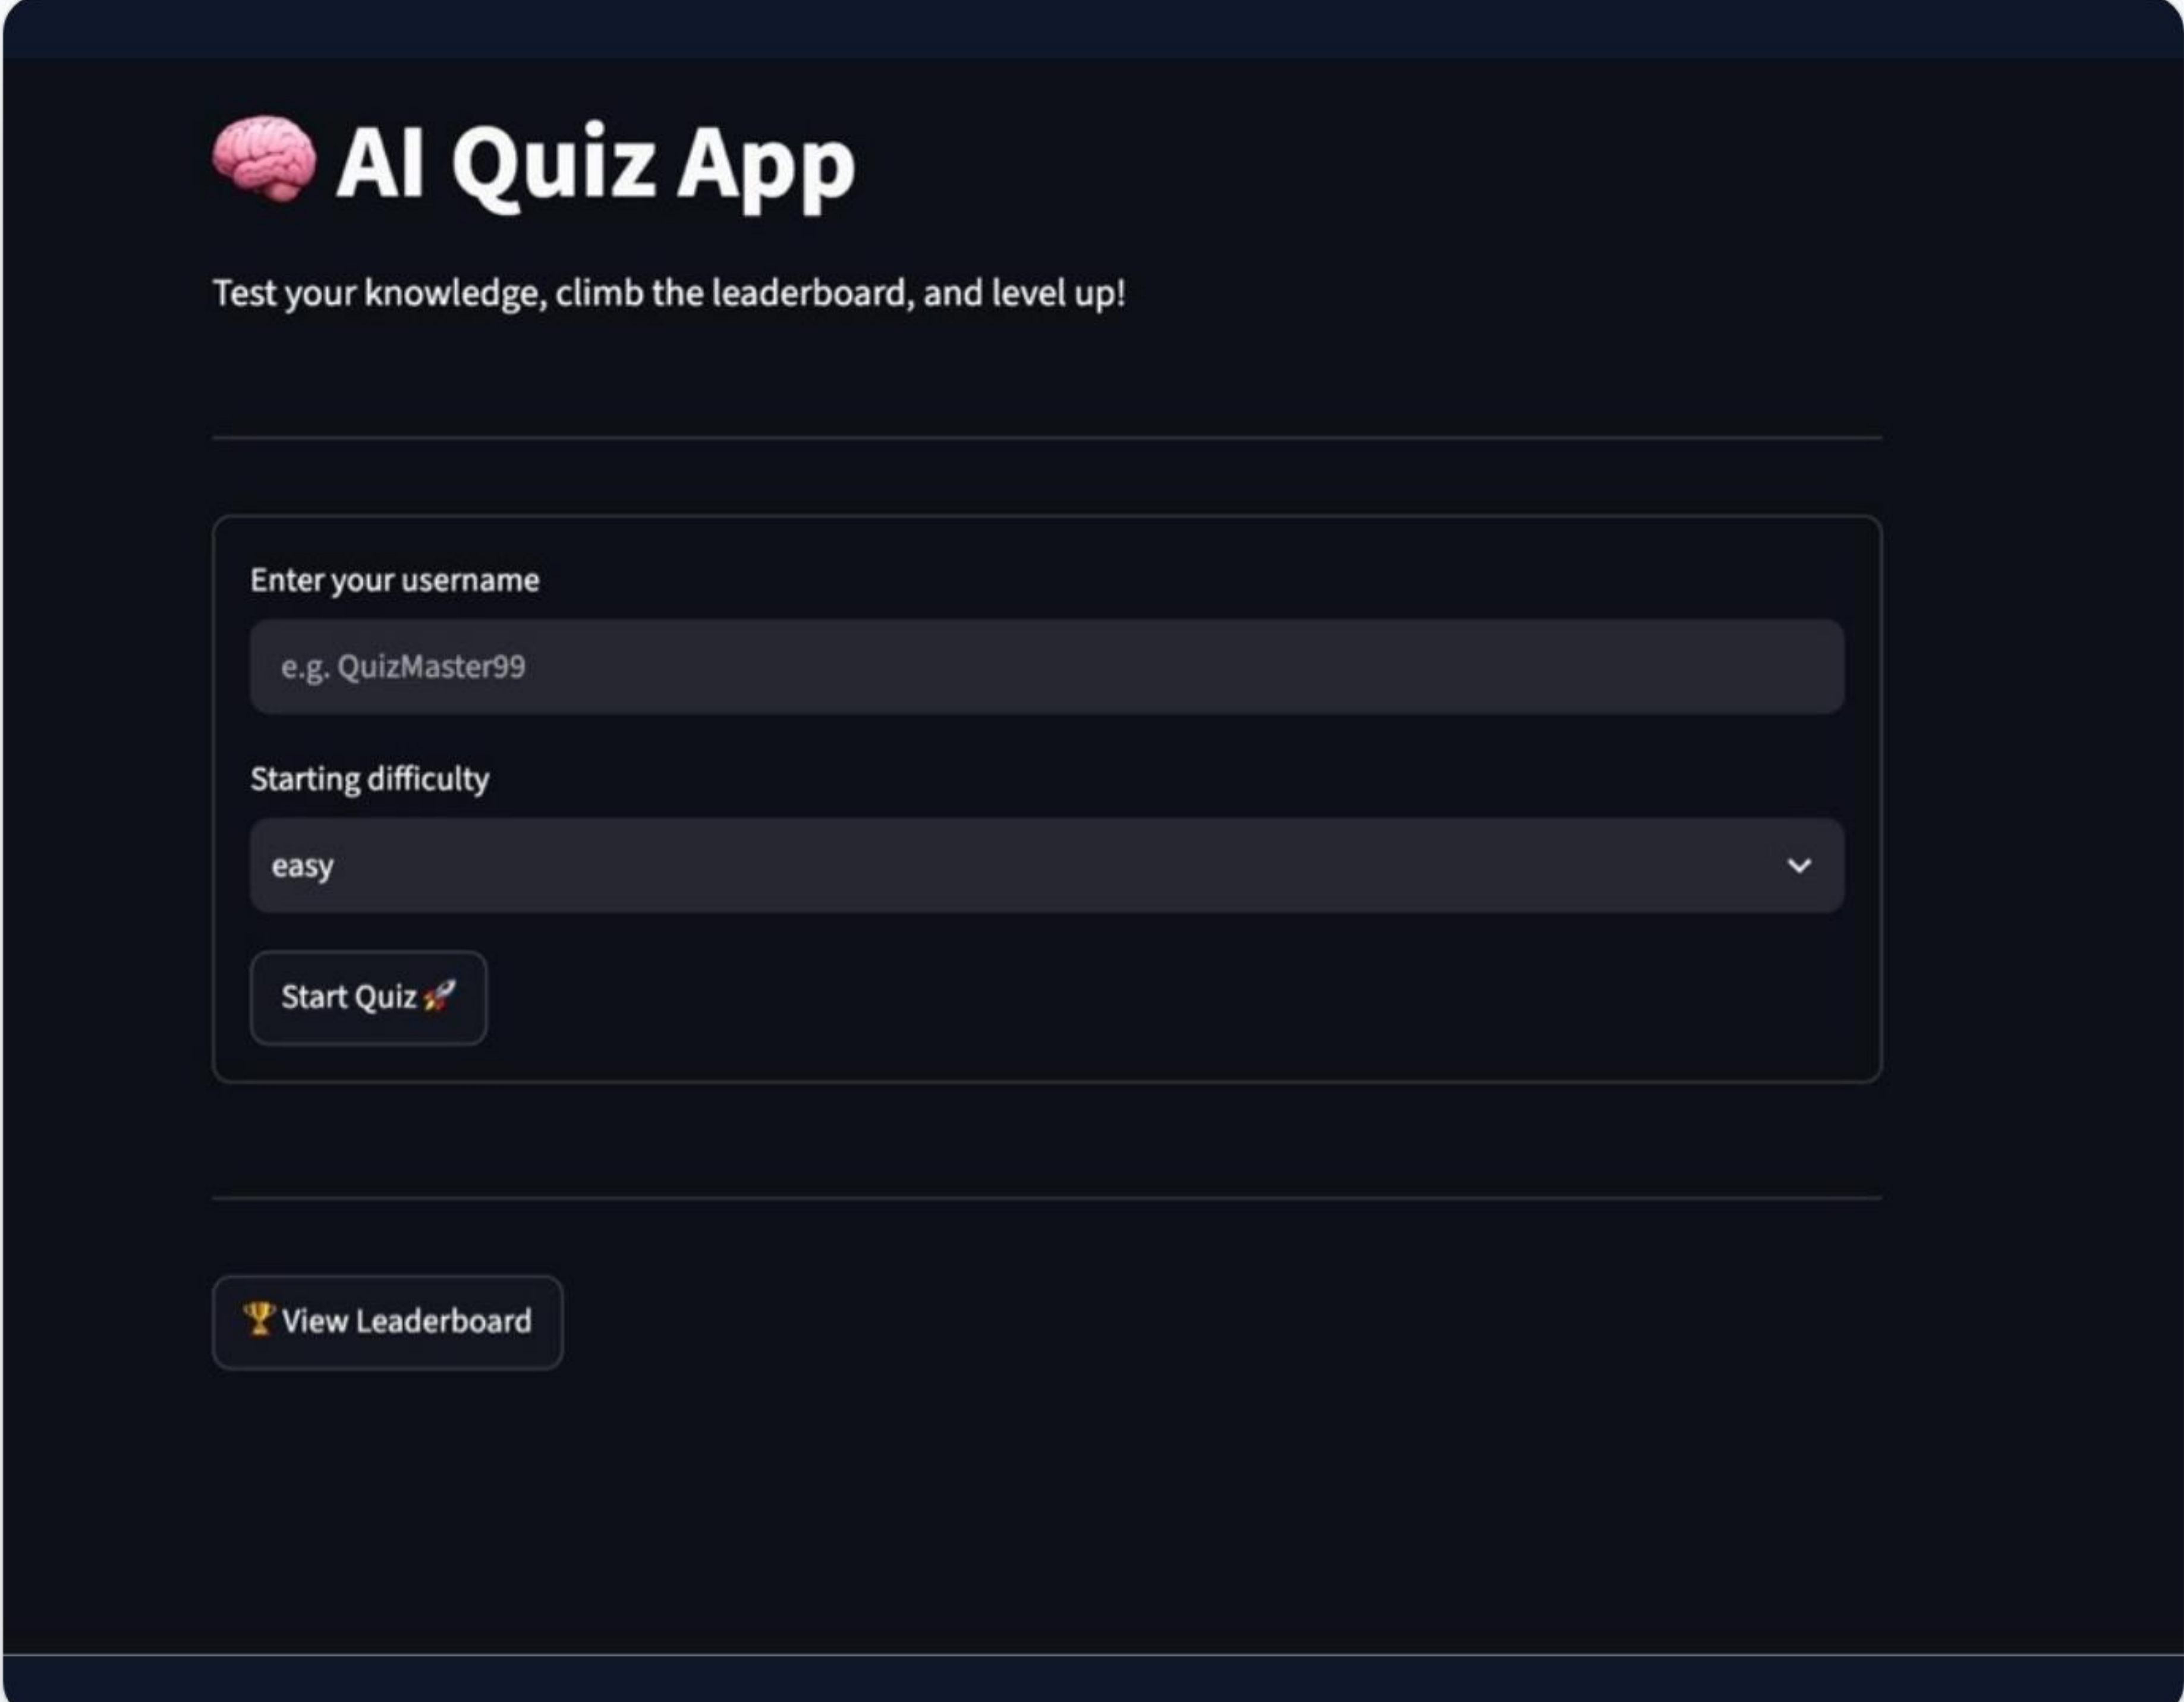

Global Ranks

Persistent scoring leaderboards across all players.

PHASE 01

Frictionless Entry

- ✓ **Zero accounts:** Custom nicknames only.
- ✓ **Base leveling:** User-selected starting difficulty.
- ✓ **Fast start:** One click to generate.

A dark-themed user interface for an AI Quiz App. At the top, there is a pink brain icon followed by the text "AI Quiz App". Below this is a subtitle: "Test your knowledge, climb the leaderboard, and level up!". The main content area is a rounded rectangle containing two input fields. The first is labeled "Enter your username" and has a placeholder text "e.g. QuizMaster99". The second is labeled "Starting difficulty" and has a dropdown menu currently showing "easy" with a downward arrow. Below these fields is a button labeled "Start Quiz" with a rocket icon. At the bottom of the interface, there is a button labeled "View Leaderboard" with a trophy icon.

PHASE 02

Intelligent Progression

Real-time grading: Instant percentage calculation.

Smart routing: High scores trigger harder modes.

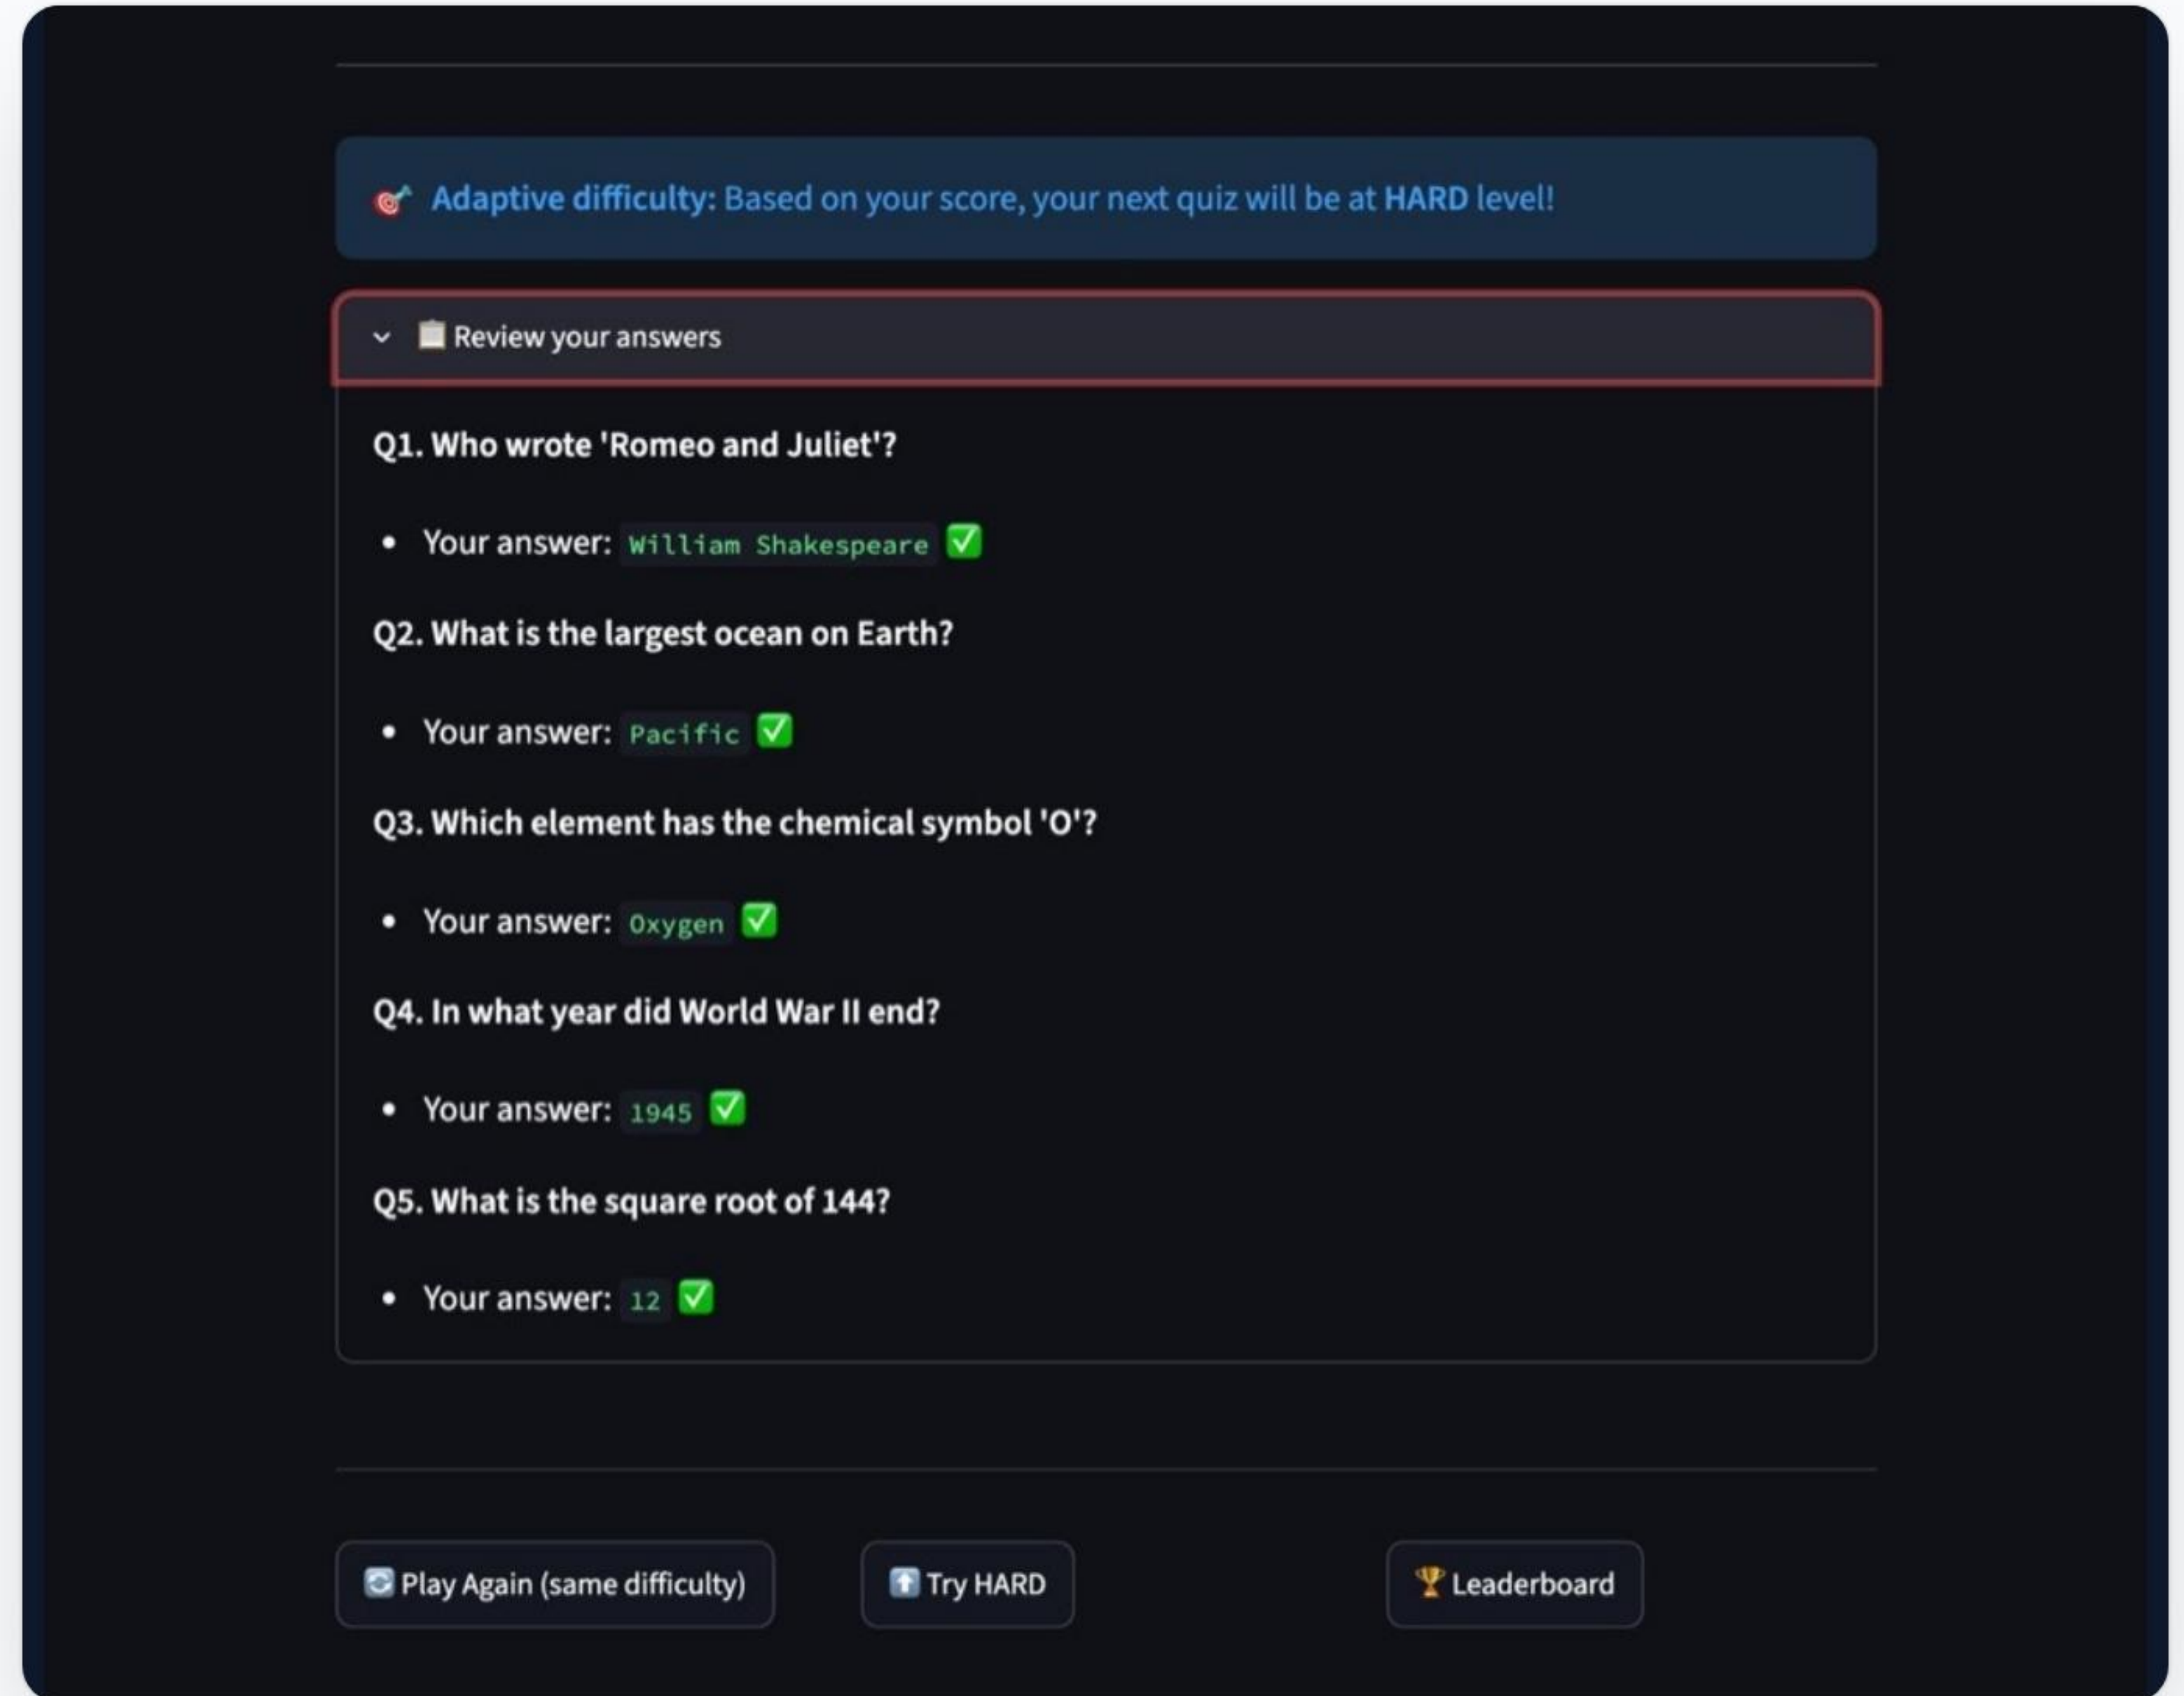

Seamless loops: One-click progression to next tier.

PHASE 03

Actionable Feedback

- ☰ **Granular review:** Question-by-question breakdown.
- ☰ **Visual clarity:** Distinct success/fail indicators.
- ☰ **Immediate correction:** Fixes knowledge gaps instantly.

Leaderboard

Top scores across all players (best attempt per player shown).

🏆 harshit — 5/5 (100%) | Difficulty: *medium*

🥈 op — 3/5 (60%) | Difficulty: *hard*
